

RISK GATE ON BNB CHAIN

A TRADING BOT WITH A BRAKE ANYONE CAN CHECK.

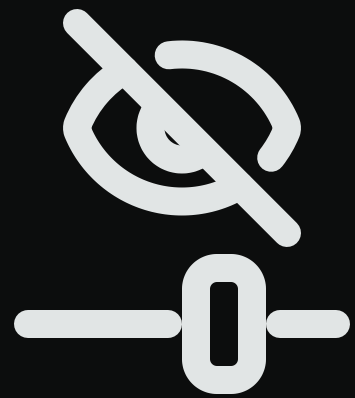

Don't take the bot's word for it.

INDONESIA WEB3 HACKATHON 2026

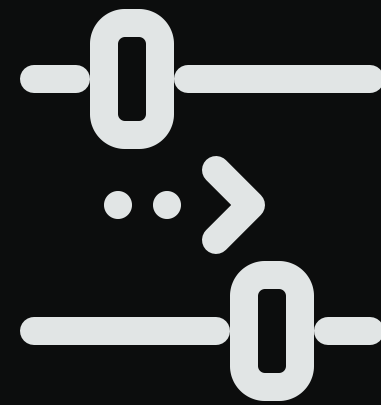

YOU CAN'T SEE THE BOT'S BRAKES.

01

Hidden limit

02

Changed quietly

03

Editable history

No independent way to check.

PUT THE BRAKE ON A PUBLIC BLOCKCHAIN.

Losses hit 20%: the bot stops itself.
Not the owner. The contract.

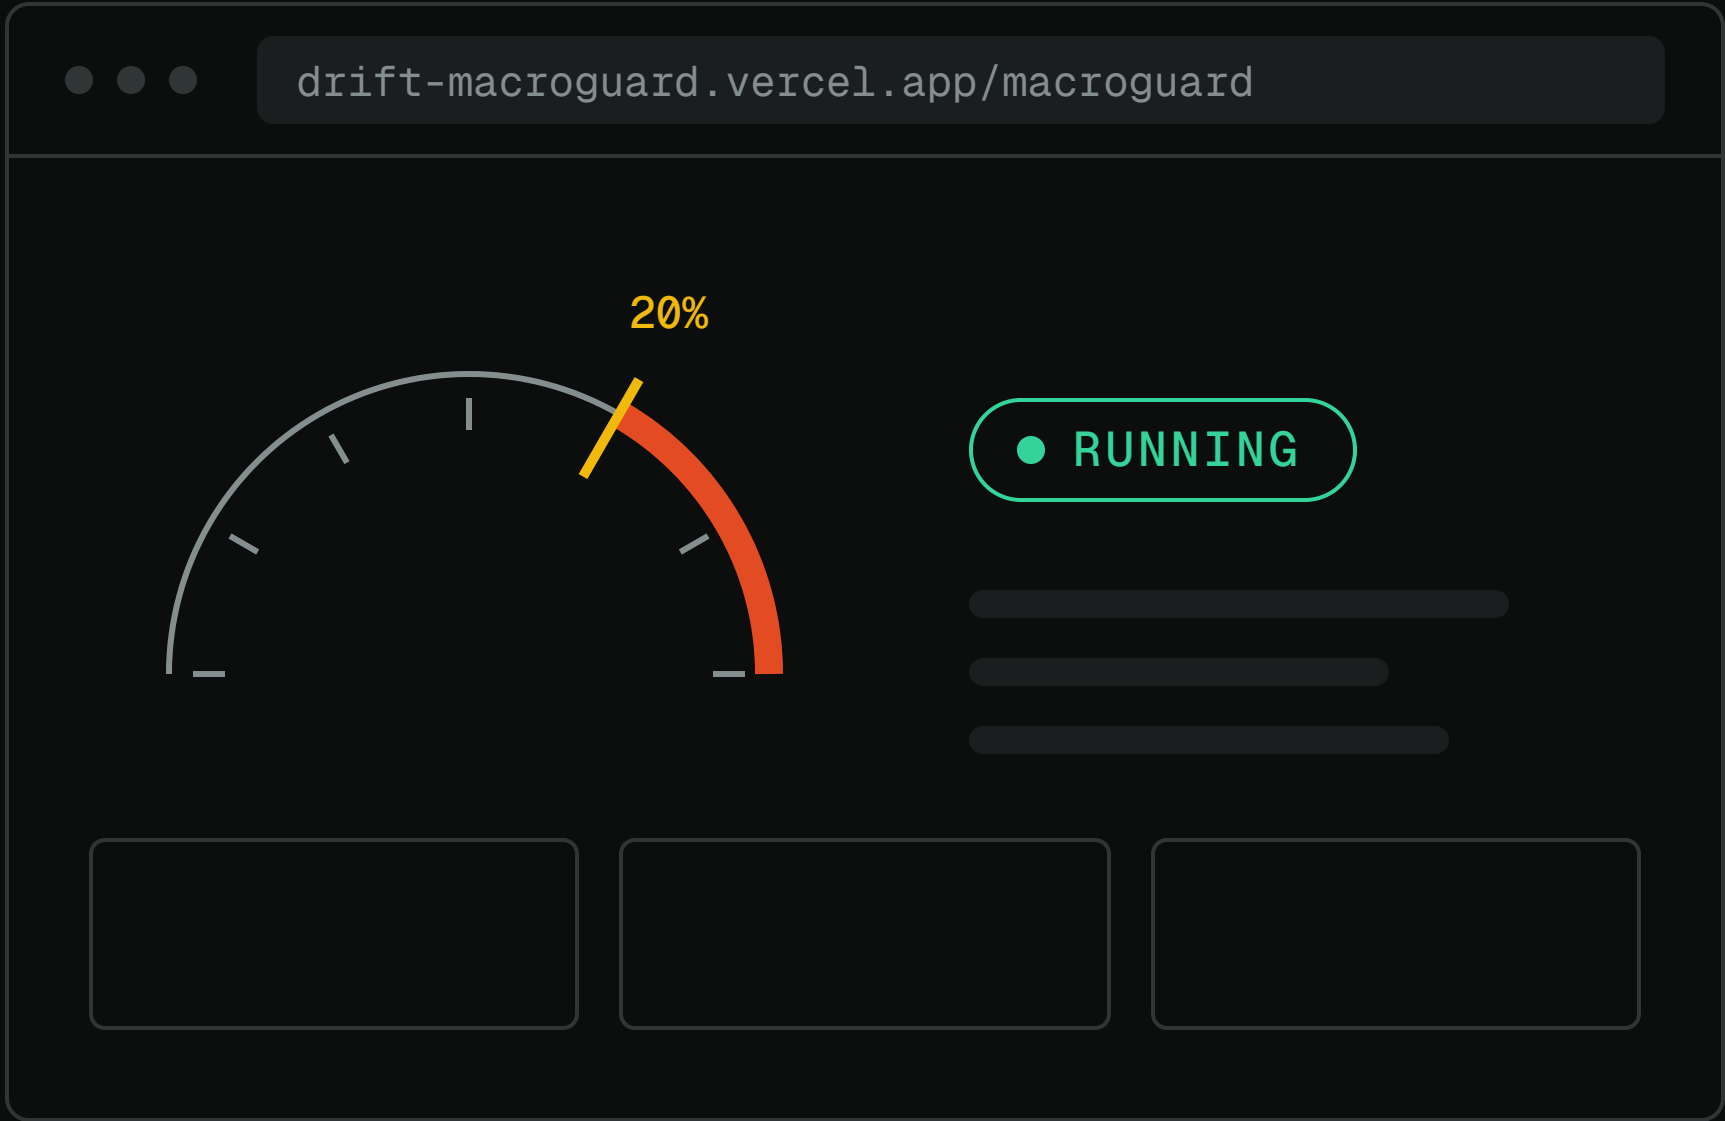

EVERY TRADE ASKS PERMISSION FIRST.

A 'no' means the bot stays out.

CHECK ANY BOT'S BRAKE IN ONE CLICK.

Live
no login, no wallet

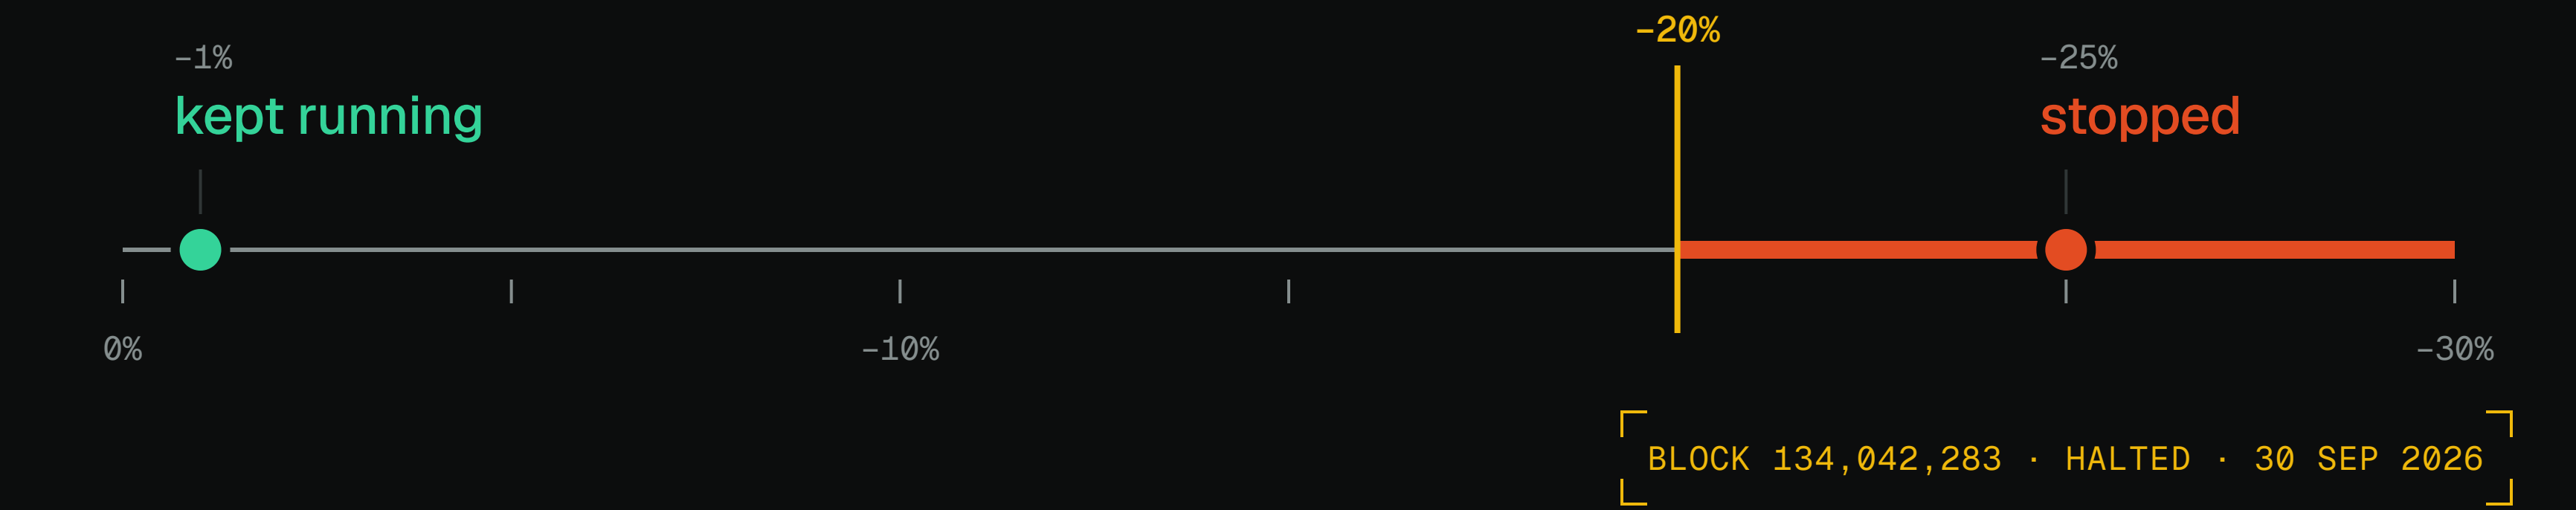

Ask it
a what-if, nothing signed

AI analyst
explains, never trades

TESTED IN PUBLIC. IT HELD.

 **6/6**
public transactions

 **30/30**
contract tests

code covered

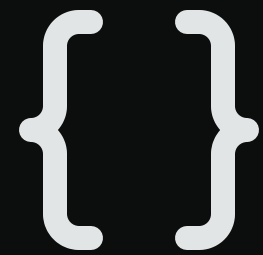

TRUST YOU CAN SHOW.

EARLY HYPOTHESIS

Followers & renters

proof before they invest

Bot builders

a record a screenshot can't fake

Auditors

check without trusting

A brake per bot, monthly, with a trust badge

CHEAP ENOUGH TO RECORD EVERY DECISION.

≈ 0.00000034

tBNB per decision

≈ 0.00008 tBNB

a day for an hourly bot

No server

read straight from the browser

TODAY → NEXT

Chain unreachable

No answer, no trade

Owner can lift a stop

Needs two keys or a delay

Bot reports its loss

Exchange confirms it

Testnet

Mainnet after an audit

DON'T TAKE OUR WORD FOR IT.
